Catharine as The Countess

Catharine Rogers

I discovered opera when I was twelve. I was cast as a child role in an adult opera, and I fell in love with the back stage, the stage, the costumes and most of all the singing. And I decided that was what I was going to be when I grew up.

I am studying to become a professional Opera Singer. Which involves singing but also learning languages and movement, acting, stagecraft, dancing and anything else that goes with being an opera singer.
