Lucy Beech:

I really hope that you enjoyed my presentation. My favourite quote is definitely C S Lewis' one. "Friendship is born at that moment when one many says to another: "What! You too?" I find this is so true when you go to tutorials because someone asks the question and it is like, yes that is the question that I've been dying to ask but I haven't had the guts to say it because I thought everyone else knew it.

And what's really great is that study methods are so varied nowadays whether you're sitting at the computer or whether you're at a tutorial you can connect to students who are feeling just like you are, because you are not alone as an Open University student.
