

## **Rundblick: Beginners German**

### *Introduction*

You will hear some brief sections about German food and drink. These recordings are taken from the Open University's beginner's course: Rundblick. Some sections are dialogues to listen to; some are to practice your own pronunciation. Try doing these exercises 'by ear' first though, you may like to take a look at the transcripts afterwards if you want to check something.

The word 'Abschnitt' means section.
