

Riding the Good Health Train

The train moves on

Dr Lillian Cingo (*Speaking over a public address system*)

...we know we couldn't help you all.....so from us all at Phelophepa and from Transnet...

(subtitles)

Thanks to you, and we all look forward to the future

Dr Lillian Cingo (*Speaking over a public address system*)

...Merci. Together we have done a lot and can still do so much. Thank you.

Dr Lynette Coetzee, Transnet Project Manager, Phelophepa

It's a non-stop challenge. You just need to make sure that these wheels will never stop rolling. One day maybe when we've got all the clinics in place. But not now. Never, ever. She must roll and roll and roll.

Subtitles over singing:

Unless you forget your pride and come to the train you'll never feel alright...
