

FEMALE STUDENT: I'm studying science, how can digital tools help me with my study?

MALE STUDENT: I'm a student too, but doing history and I need help with writing essays that need a reasoned conclusion. Are there any tools for that?

OLDER STUDENT: I left school many years ago and today's digital world excites me and scares me at the same time. There's so much information at my fingertips, but how do I find the information I need. What tools can I use for that?

MALE STUDENT 2: I agree and how can I put that information to use to answer my own questions so I can make better decisions.

FEMALE STUDENT 2: I welcome tools, digital or otherwise to help with my thinking, but what about the future? Will I still need them once artificial intelligence answers any questions for me, or will it?

NARRATOR: Well these are all great questions and this course can help with all of them. Let's get started.
