

International development: challenges for a world in transition

Acting for education

Sudhar Bhuchar:

The children of Mbama primary are about to learn how they can be responsible for their own health, and their family's.

The school has visitors from a development agency called 'HPA'.
Children in HPA's view need to be allowed to discover things for themselves.

Children, - who am I? A fly

Dr Sekiete Sekusua, Training Coordinator, HPA

What I believe is through this type of education to children, who are the parents of tomorrow. People will be in a position of learning the right things to do at the right time, and they will go forward.

I'm a house fly, and what I like best of all are these open places near the toilet.

This is where we can breed, give birth to lots of children, get lots to eat, if you don't cover the latrine.
